Meet colleagues, share scientific ideas and learn.
Make friendships and get support for your future endeavors!

Come join us! Compete for the Young Investigator Award!

Participate in the contest if you have Hungarian roots and you are a postdoctoral associate, medical student, resident or fellow conducting biomedical research in the United States of America or Canada. Competition participants will be selected by the HMAA Young Investigator Award Committee based on their curriculum vitae and their abstracts.

If you are selected to compete your conference registration fee will be waved. Moreover you will also be eligible for free membership in HMAA for one year. Therefore **everyone who participates is a winner!**

To apply: Follow instructions in the [application form](#) attached or available via the provided link. The application dead line is May 15, 2010.

The conference is a superb opportunity to meet fellow Hungarians involved in medical sciences in the United States in a family friendly atmosphere. You will be able to collect Category 1 American Medical Association Continuing Medical Education credit for attending the presentations held by internationally know experts. The social programs and organized sport activities (water polo, tennis, beach run, soccer) will provide ample opportunity to relax and enjoy one of the best beaches in the country.

The Young Investigator Award was created because the HMAA recognizes the need for people in the beginning of their scientific carriers to show evidence of their outstanding abilities. All selected applicants will receive a certificate attesting to their participation, which by itself is a wonderful achievement. While the most outstanding presentation will be selected by the panel of judges at the conference to receive the prestigious HMAA Young Investigator Award and Prize!
